Orlando, FL

2011-11-30

Todd C. Williams has been accepted to present on **People and Process** at the February, 2012 **NASA Project Management Challenge 2012**. It is an extreme honor to be a contributor at NASA's annual seminar designed to examine current program/project management trends, as well as provide a forum for knowledge sharing and exchange lessons learned. By attracting stakeholders from all experience levels of our workforce, NASA establishes an important link between NASA's world-class experts and our emerging leaders for tomorrow.

The PM Challenge includes influential speakers, discussion panels, and networking in program/project management, systems engineering, safety and mission assurance, and team building.

The event is attended by over 1,500 people and open to the public. This year the theme of **Project Management Challenge 2012** is **Evolve and Excel**. Held at the lovely Caribe Royale Hotel and Convention Center, Orlando, Florida on February 22-23, 2012, you can register to attend the event online at:

<http://www.nasa.gov/offices/oce/pmchallenge/registration/index.html>

PM Challenge is sponsored by the [Office of the Chief Engineer](#) (OCE).

END

About Todd Williams

For twenty-five years Presidents, Vice Presidents, and C-Level executives of manufacturing and service companies have asked Mr. Todd C. Williams to help them build leading-edge systems, improve organizational efficiency, and turn-around troubled projects. From this experience, he has developed methods to streamline organizations, recover red projects and help prevent recurring failures.

In his first book, *Rescue the Problem Project: A Complete Guide to Identifying, Preventing, and Recovering from Project Failure*, published by the AMACOM Books (2011), he defines a project audit and recovery process that rescues failing projects while focusing on root cause correction and prevention.

Mr. Williams is a Professional Member of the National Speakers association and holds a Project Management Professional (PMP) Certification from the Project Management Institute (PMI).

About eCameron, Inc.

eCameron, established in 2002, is a consulting firm comprised of senior-level management professionals providing company, departmental and project set-up, turn-around, and project recovery services. It is a privately held Washington corporation located in Camas, Washington.
